Stuttgart / Germany

<https://www.euroxr-association.org/conference2022/>

EXTENDED DEADLINES

After a number of requests, the Scientific Program chairs are pleased to inform you that deadlines for **Scientific contributions** at EuroXR 2022 have been extended as follow:

- All Scientific submissions: ~~April 25, 2022~~ → **May 9, 2022, 23:59 CEST**
- Notifications to the authors: ~~June 13, 2022~~ → **June 20, 2022, 23:59 CEST**
- Camera ready for all Scientific contributions: **July 4, 2022, 23:59 CEST (no change)**

Please note that no change is planned for the deadlines of the **Application track** and **Demo & Exhibition track** of EuroXR 2022.

SUBMISSION WEBSITES & GUIDELINES

Proceedings of the **Scientific track** of EuroXR 2022 will be edited by **Springer Nature** as a **Lecture Notes in Computer Science (LNCS)**. Therefore, such submissions and accepted contributions have to be uploaded thanks to the **Online Conference Service (EquinOCS)** of Springer.

For all Scientific contributions, please use the following EquinOCS website:

<https://equinocs.springernature.com/service/EuroXR2022>

and scientific guidelines are available here:

<https://www.euroxr-association.org/conference2022/submission-guidelines-for-scientific-track/>

For further information, feel free to contact the Scientific Program Chairs of EuroXR 2022.

Regarding the **Application track** and **Demo & Exhibition track** of EuroXR 2022, these proceedings will be published an ISBN-registered volume edited by **VTT Technical Research Centre of Finland Ltd.** Such contributions will be managed with **EasyChair**. This portal will open after the Scientific track submission deadline. This will be announced with another call and in the guidelines these tracks:

<https://www.euroxr-association.org/conference2022/submission-guidelines-for-application-track/>

For further information, feel free to contact the Application Program Chairs or the Demo & Exhibition Chairs of EuroXR 2022.

3rd CfC of the 19th EuroXR International Conference, EuroXR 2022

INVITED SCIENTIFIC SPEAKERS & KEYNOTES' TITLES

EuroXR 2022 will welcome some prestigious Scientific Keynote Speakers:

Bruce H. Thomas (Director of IVE Lab, University of South Australia)
The Future of UI in XR

Antony Steed (University College London, UK)
Strategies for Designing and Evaluating Mixed Reality Experiences

Giuseppe Riva (Università Sacro Cuore, Italy)
Neuroscience of XR: Using Simulative Technologies for Hacking our Brain

Abstracts related to these scientific keynotes are available here:

<https://www.euroxr-association.org/conference2022/scientific-keynote-speakers/>

Application keynote speakers will be announced soon on the website.

COVID-19 CONTINGENCY PLAN

In case a physical attendance of the conference will not be feasible (due to Covid-19), we will publish all accepted papers as stated above, and we will hold a virtual conference that will allow all authors to present their work.

If it happens that such a plan would apply, all information will be delivered on the EuroXR 2022 website (<https://www.euroxr-association.org/conference2022/>). Therefore, we highly recommend you to consult this website regularly.
